Secret RF Microneedling - PRE AND POST CARE INSTRUCTION

PRE-TREATMENT CARE

- No sun-tanning or self-tanners 4 weeks prior to treatment
 - Includes spray tans, tanning lotions, tanning beds, sun exposure, etc.
- Avoid skin irritants (examples below) a few days before and after treatment
 - Products containing tretinoin, retinol, benzoyl peroxide, glycolic/salicylic acids, vitamin C/ascorbic acid, astringents, etc. Avoid treatments that may irritate the skin for 1-2 weeks prior to treatment (waxing, depilatories, etc.)
- Unable to treat Clients with an allergy to gold or metal
- Botox/Collagen/Fat injections or other methods of augmentation with injected material in the treated area within 6-months prior to treatment
- Face lift or eye surgery within one year prior to the treatment
- Facial dermabrasion, facial resurfacing or deep chemical peeling within last 3 months, if face being treated
- Having received treatment with light, RF or other devices in the treated area within 1 month prior to treatment
- Any surgical procedure in the treatment area within 3 months or before complete healing
- Current medications (both routine and occasional use) could affect treatment
 - Accutane – unable to treat if taken in the last 6 months
 - Gold Therapy – may cause blue-gray discoloration
 - Anticoagulants – may increase risk of purpura or bruising
- Clients with Vitiligo may experience de-pigmentation
- Clients with Herpes may be pre-treated with an antiviral
- Cannot treat over open wounds
- Unable to treat over tattoos
- All traces of make-up must be removed prior to treatment
- Treatment can only be done over known benign lesions
- Cannot be treated over dysplastic nevi or questionable pigmented lesions

POST-TREATMENT CARE

After Secret RF treatment, the treated area(s) may feel warm, swelling, tingly, itchy or slightly sensitive for up to 48 hours.

Note: The length of redness or sensitivity varies from patient to patient and depending on the aggressiveness of the treatment. There may be some grid like pattern or graze very minimal which may last few days.

MENDS (Mico-epidrmal necrotic debris) is common, mostly for off-face treatment and can last a few days to few weeks. Use soothing gel until the heat subsided.

The following post-treatment care should be followed to achieve the best results from Secret RF treatments.

- Avoid cleansing the treated area on the day of the treatment. Start on Day 2.
- Cleanse the skin with cold water and dab or pat lightly with a towel.

- Use the post-procedure cream 3 times a day for the first 3 days followed by daily for the next 4 days.
- Make-up can be applied after 24hr
- Avoid hot showers, baths, saunas for 24 hours.
- Avoid scratching or picking on the treated area.
- Refrain from applying any lotions on the treated area for 24 hours.
- Apply sun protection lotion every day and avoid sunbathing and direct sun exposure.
- Avoid active ingredients 2-5 days before and 2-5 days after the treatment
