MAINTENANCE TREATMENTS

After your initial course, maintenance treatments every 3–6 months can help maintain facial muscle tone and prolong your results.

For clients who have Botox, these treatments can complement and enhance your results by supporting facial muscle tone while Botox relaxes targeted muscles. Treatment suitability and results vary between individuals. A consultation is recommended to determine the most suitable treatment plan.

EMFACE Double Chin Removal

EMFACE® non-surgical facial sculpting combines advanced technology to help reduce targeted fat while strengthening facial muscles and improving skin firmness, helping to refine and define jawline without surgery or extensive downtime.

<https://www.beutilase.co.nz/double-chin-reduction/>

Treatment	Single Treatment	4 Treatments	6 Treatments
Double Chin	\$450	\$1620 Save \$180	\$2295 Save \$405

MAINTENANCE TREATMENTS

After your initial course, maintenance treatments every 3–6 months can help maintain muscle tone, skin firmness and jawline definition, supporting your long-term results.

Treatment suitability and results vary between individuals. A consultation is recommended to determine the most suitable treatment plan.

RF Microneedling

An advanced skin-renewal treatment that combines radiofrequency energy with microneedling to stimulate collagen and elastin production. It helps improve skin firmness, texture, fine lines, acne scarring, enlarged pores and overall skin quality.

MAINTENANCE TREATMENTS

Once your initial treatment course is complete, maintenance treatments every 6 – 12 months can help maintain and extend your results. Your therapist will recommend the ideal maintenance schedule based on your individual skin and treatment goals.

Treatment suitability and results vary between individuals. A consultation is recommended to determine the most suitable treatment plan.

Laser Pigmentation

A targeted laser treatment designed to reduce the appearance of unwanted pigmentation, including sun spots, age spots and uneven skin tone. It helps reveal a brighter, more even complexion and can be customised for the face and body.

Treatment suitability and results vary between individuals. A consultation is recommended to determine the most suitable treatment plan.

truSCULPT iD

Non-Invasive Body Sculpting & Fat Reduction

truSculpt iD is a non-invasive body sculpting treatment designed to target stubborn, localised fat and help contour the body. It can provide up to 24% fat reduction in one treatment, with treatment technology working in as little as 15 minutes per treatment area.

Unlike surgical liposuction, truSculpt iD requires no incisions or surgery. Liposuction can carry risks such as nerve injury and changes to skin contour, while fat-freezing treatments can cause temporary numbness and may not tighten loose or sagging skin. truSculpt iD offers a non-invasive alternative for targeted fat reduction and body contouring.

<https://www.beutilase.co.nz/treatments/body-sculpting/>

Buttocks	\$1,400	\$3780 Save \$420	Every 12 weeks

Treatment suitability and results vary between individuals. A consultation is recommended to determine the most suitable treatment plan.

Aqualyx Fat Dissolving Injections

Aqualyx Fat Dissolving Injections are a non-surgical treatment containing deoxycholic acid that targets and permanently breaks down stubborn, localised fat. The body naturally processes and eliminates the treated fat cells over the following weeks.

Aqualyx offers a non-surgical alternative to liposuction and fat-freezing. Unlike liposuction, there are no incisions or surgical risks such as nerve injury. Fat-freezing can cause temporary numbness and may not address loose or sagging skin.

<https://www.beutilase.co.nz/treatments/aqualyx-fat-dissolving-injections/>

Treatment Packages

4D Total Skin Lift & Glow Program — Year-Long Packages for lifting, firming, toning and revitalising the skin with advanced, multi-modal treatments and minimal downtime.

Our EMFACE packages combine advanced facial muscle stimulation with skin rejuvenation treatments to help lift, firm, sculpt and refresh the appearance of the face.

Selected packages also include RF Microneedling, which combines microneedling with radiofrequency energy to target deeper layers of the skin and support collagen production, skin tightening, smoother texture and improved firmness.

Choose from our packages for first-time clients, targeted rejuvenation or long-term skin maintenance.
